Home Winemaking Catalog / Revised 09/09/22

Company Background:

Gino Pinto LLC is a family operated business which was established in 1968 by Gino Pinto. Gino Pinto LLC imports wine-making equipment and supplies from Europe for distribution to its clientele here in the U.S. Gino Pinto LLC also sources wine making equipment from domestic manufacturers in the U.S. as well as distributes fresh wine grape and grape juice from our suppliers in the U.S., Chile, Italy, and South Africa. The company is located in Hammonton, New Jersey.

In June of 2021 Gino Pinto LLC merged with Wine & Beer Supply of Ashland, Virginia. This merger facilitates our expansion into other product lines such as beer and mobile services including bottling, filtration, reverse osmosis, canning, and kegging.

Terms & Prices:

All prices are List FOB Hammonton, NJ . Terms are cash, credit card, or approved check on delivery. Prices are subject to change without notice. We reserve the right to change prices for any currency rate fluctuation or change in factory pricing. This catalog shall not be deemed to be offers by Gino Pinto LLC.

WE ACCEPT   VISA   MasterCard   DISCOVER NETWORK

Shipping:

Orders are shipped via UPS or common carrier on a prepaid basis, billed on your invoice.

Damage Or Loss Claims:

When you sign for your freight bill be sure to verify the number of cartons received. Any discrepancy or damages must be signed by the driver at the time of delivery on the freight bill in order to honor the claim.

Returns:

Returned merchandise must be authorized by Gino Pinto Inc. and is subject to a 25% restocking fee. Merchandise must be returned within 30 days of original purchase date.

Customer Pick Up:

Please call in 24 hours in advance when picking up large orders.

The Mix-Stir
Specially designed for mixing and stirring wine/beer and de-gassing.
- Manufactured in high quality polycarbonate with ABS blades and stainless steel insert.
- The blades act like a turbine for maximum mixing and stirring efficiency.
- The Mix-Stir fits any electric drill (variable speed drill with reversing capacity recommended).
- The Mix-Stir comes standard in a 24" length. It is long enough to be used in large primary fermenters and barrels.
- The Plastic blades also make it safe to use with glass carboy.
Price: $18.50

Accessories

Must Scoop, 2 Quart..............Price: $19.95

Oak Chips

Oak chips can add attractive oak flavors and aromas to wines. They are especially useful during red wine fermentations in stabilizing color and moderating overly vegetal characteristics. Oak chips may be added during or after fermentation. They can be added in loose form to red fermenters or suspended in tanks via immersible "soaking" bags. Recommended contact time varies according to particular applications, but full extraction will usually occur within 8 weeks. Rinse in hot water before use.

American Oak Chips, 1oz Package..............Price: $0.50

French Oak Chips, 1oz Package...............Price: $0.50

American Oak Chips, 1lb Package..............Price: $6.25

French Oak Chips, 1lb Package..............Price: $12.25

Oak Sticks

WineStix For Carboys — American Oak, 2 per package / Price: $12.95

WineStix For Carboys — French Oak, 2 per package / Price: $14.95

One stick for 5-6 gallons, Good for two seasons, when done with season's wine keep the wood wet and scrub with a stainless steel (sanitized) brush; keep wet and double wrap with plastic stretch wrap and freeze. Thaw and put in the next wine. This will give 2nd season barrel type extractions and flavors. Available in different toast levels.

WineStix For Tanks-American Oak, 1 per package / Price: $38.00

WineStix For Tanks-French Oak, 1 per package / Price: $48.00

WineStix Tank Staves are sized so that one Stave is the dosage for 30 gallons of wine. Please allow 3 months minimum extraction time to balance the extractions of short and long grain.

Accessories

Sulfur Burning Holder . . . .Price: $45.00
The Sulfur Burning Holder is a perforated stainless steel tube and is 1.388" OD X 4" long. It's made from 304 stainless steel with a welded end plug. It's suspended on an 24" Aluminum Rod and held with a solid rubber bung.

The sulfur disc or strip is placed in the tube where it burns. Drippings are contained within the tube.
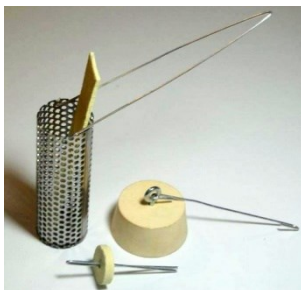

Jet Carboy & Bottle Washer . . . . Price: $13.95
The Jet Carboy and Bottle Washer is your best solution for cleaning any size bottle or carboy. Attach washer to a laundry tub faucet and washer is ready to work for you by directing a powerful stream of water from your faucet into the vessel you wish to clean.

An adapter is available to fit your kitchen faucet by removing aerator and attaching adapter and washer.

Bottle Fillers

Zambelli "Hobby 3" Bottle Filler, Stainless Steel Body With three stainless steel spouts.
 Cat. No. 7623/H / Price: $495.00
- Dimensions (mm) - 410 x 490 x 560 (h)
- Bottles per hour - 275
- Weight (kg) - 7.5

Zambelli "Hobby 5" Bottle Filler, Stainless Steel Body With five stainless steel spouts.
Cat. No. 7624/H / Price: $595.00
- Dimensions (mm) - 670 x 490 x 560 (h)
- Bottles per hour - 390
- Weight (kg) - 10.5

Bottle Fillers-Accessories

Siphon Bulb For Zambelli "Hobby" Bottle Filler
Cat. No. SBZHF / Price: $18.50

Bottle Fillers
Enolmatic / Electric Automatic Bottle Filler

The Enolmatic is the only vacuum filler coupling small size and easy operations with professional features and performance. Hourly filling rate is about 250 bottles per hour. This unit is the ideal equipment for filling wine. Other liquids such as oil, spirits, liquor, tomato sauce, and fruit juices, can also be filled with the proper additional kit. The filler is constructed of top quality food grade materials and is reliable. A carboy, barrel or demijohn can be placed below the Enolmatic filler for up to 13 feet (4 meters). The filler is practical and you can adjust the filling level just once and it remains as default value and you can adjust the filling speed. You can use the Enolmatic with bottle heights from 250 mm up to 330mm and inner neck diameters from 16mm to 28mm.

Enolmatic Bottle Filler. . . . .Price: $425.00

Enolmatic Technical Specifications	
Production	WINE: about 250 bottles per hour OIL: about 150 bottles per hour LIQUORS: about 200 bottles per hour
Dimensions	200 x 400 x 400 mm
Weight	4 kg
Power Supply	110V (220V-60Hz available upon request)

Bottle Features (with standard nozzle)	
Neck Inner Diameter	from 16 mm up to 28 mm
Bottle Height	from 250 mm up to 330 mm

Bottle Fillers-Enolmatic Accessories
Tandem Vacuum Filter For Enolmatic

The Tandem vacuum filter for the Enolmatic is designed to operate with the filler performing filtering and bottling at the same time. The vacuum operating mode allows you to maintain product quality and avoid spoilage and waste. The product is always handled in the most natural way throughout the process.

Tandem Vacuum Filter For Enolmatic, (Filter Cartridge Not Included).
Price: $195.00

Filtering Cartridges For Wine For Enolmatic

Enolmatic Filter Cartridge, Micron Size (.2), Ultra Fine Filter For White Wine..........Price: $89.00

Chemicals & Additives

Acid Blend, 3 oz ...Price: $3.50 / Acid blend is commonly used to increase the acidity of a must. Usage Varies.

Acid Blend, 1 pound ...Price: $7.50 / Acid blend is commonly used to increase the acidity of a must. Usage Varies.

Ascorbic Acid, 1 oz . . .Price: $3.50 / Ascorbic acid is used as an anti-oxidant in grape must and wine.

Bentonite, 4 oz . . .Price: $4.50 / A very fine clay used as a fining or clarifying agent in wine. Use 2 ½ tsp, mixed well in hot water.

Campden Tablets, 2 oz (approximately 100 tablets). . .Price: $4.50 / Tablets used in winemaking to sanitize equipment and add free SO2 to the must or wine. When crushed and dissolved, they provide sulfur dioxide (SO2) in a convenient form. Tablets are made with Potassium Metabisulfite. Tablets must be crushed to use. For sanitizing bottles and other equipment, use two crushed tablets dissolved in 1 gallon of water. For adding to must, use one crushed and dissolved tablet per gallon of must and wait 12 hours before adding yeast. 1 tablet per gallon =30 ppm SO2.

Calcium Carbonate, 1 pound. . .Price: $3.00 / Lowers acidity in wine. Use 5/8 teaspoon per gallon to lower acidity .15%. Use before fermentation. Do not reduce acid more than .30%.

Citric Acid, 1 pound. . .Price: $7.50 / Citric acid is added to wines to increase acidity and is best added after all signs of fermentation have disappeared.

Citric Acid, 2 oz . . .Price: $2.50 / Citric acid is added to wines to increase acidity and is best added after all signs of fermentation have disappeared.

Fermax Yeast Nutrient, 4 oz ...Price: $3.50 / Fermax is a premium nutrient containing diammonium phosphate, dipotassium phosphate, magnesium sulfate and autolyzed yeast. This yeast energizer acts as a food for the yeast and promotes rapid starting and complete fermentation. Use: 1 teaspoon per gallon of wine.

Gelatin, 175 Bloom, 2 oz . . .Price: $2.50 / Fining agent for wine. Effectively removes excess tannins and coloring particles from wine. Usage: 1/2 teaspoon per 5 gallons. Dissolve in ½ cup water, let stand, then add.

Liquid Oak Tannin-Vanilla, 4 oz (Fluid), . . .Price: $12.99 / Gives a slight vanilla accent and produces a very smooth, almost creamy addition.

Liquid Oak Tannin-Fruit Enhancer Plus, 4 oz (Fluid), . . .Price: $12.99 / Emphasizes a ripe berry character, best for red wines.

Malic Acid, 1 pound. . .Price: $5.50 / Malic acid is used to increase acid in wine juice. Use prior to fermentation.

One Step Cleanser, 8 oz, Pail. . .Price: $5.50 / One Step Cleanser is the only no-rinse cleanser that uses active oxygen to do its work. Does not contain chlorine, bisulfate, organic compounds or phosphates. Simply add 1 tablespoon One Step per gallon of cold or warm water and dissolve. Rinse or soak equipment and bottles with the One Step solution and use. For best results, insure that you have a 30 second contact time with the One Step solution. Perfect for stainless steel tanks as One Step Cleanser will not harm metal surfaces.

Chemicals & Additives... Continued

Pectic Enzyme, 0.5 fluid oz . . . Price: $3.00 / A liquid that is added to crushed fruit to increase juice extraction. Also used during fermentation to eliminate pectin hazes. Pectic enzyme increases juice yields from fruits by breaking down cellular structure. Also acts as a clarifier, and is used to clear hazes caused by residual pectins. Use: Add 1/4 teaspoon per 6 US gallons of wine.

Potassium Metabisulfite, 1 pound . . . Price: $6.00 / Potassium Metabisulfite is a common wine or must additive, in which it forms sulfur dioxide gas (SO_2). This both prevents most wild microorganisms from growing, and it acts as a potent antioxidant, protecting both the color and delicate flavors of wine. It can be used for sanitizing equipment and the must from which wine is to be made.

Potassium Sorbate, 1.8 oz . . . Price: $2.50 / Potassium Sorbate is a wine stabilizer that should be used in conjunction with Campden or its active ingredient, Potassium Metabisulfite. In other words, it works better with sulfites present than without, and it works better than sulfites alone. Potassium Sorbate disrupts the reproductive cycle of yeast. Yeasts present are unable to reproduce and their population slowly diminishes through attrition. Potassium Sorbate is added in the amount of 1/2 teaspoon per gallon of wine. Sorbic Acid results and stabilizes the wine. Usually the crushed Campden and Potassium Sorbate are dissolved in a cup or two of the wine to be stabilized and stirred thoroughly. Allow the stirred wine to sit a few moments and look for small white lumps of undissolved powder. If present, continue stirring until the wine is clear without any undissolved lumps. This is then added to the larger batch and stirred in well with a sanitized glass rod or wooden dowel. Once a wine is stabilized it can be sweetened if desired.

Potassium Sorbate, 1 oz . . . Price: $2.35

Potassium Sorbate, 1 pound . . . Price: $16.00

Sparkolloid Powder, 1 oz. . . . Price: $2.50 / Sparkolloid is used as a fining (clearing) agent. Use: Dissolve 1 tbsp in 1 cup (8 fl oz.) of boiling water for 5 minutes. Add mixture to 6 U.S. gallons of wine. Stir gently. Allow wine to settle for approximately a week, then rack.

Super-Kleer K.C., 2.2 oz . . . Price: $4.75 / Super-Kleer K.C. is a two stage wine and beer clarifying kit. Contains two pre-mixed pouches of kieselsol and chitosan.

Tartaric Acid, 2 oz . . . Price: $5.50 / Tartaric acid added to wine adjusts the acidity level and pH levels. If the acidity is too low and the pH level too high, the wine becomes unstable and susceptible to spoilage through bacterial growth.

Tartaric Acid, 1 pound . . . Price: $11.00 / Tartaric acid added to wine adjusts the acidity level and pH levels. If the acidity is too low and the pH level too high, the wine becomes unstable and susceptible to spoilage through bacterial growth.

Turbo Yeast, . . . Price: $5.95 / Used to ferment sugar up to 14 percent ABV, producing a premium quality alcohol wash / base.

Wine Tannin Powder, 1 oz . . . Price: $3.50 / Adds astringency or zest (flavor and vinosity) to reductive wines. It also aids in the clearing process.

Yeast Nutrient, 1 pound . . . Price: $8.00 / Diammonium Phosphate (DAP). A source of nitrogen for yeast. Diammonium Phosphate stimulates yeast growth, and is a useful addition to yeast starters and wines lacking in natural nutrients

Chemicals & Additives... Continued

Yeast D-47, 5 grams . . . Price: $.95 / Recommended for making wines from white varieties such as Chardonnay and rosé wines. An excellent choice for producing mead, however be sure to supplement with yeast nutrients, especially usable nitrogen. An excellent choice for dry whites, blush wines and residual sugar wines.

Yeast EC-1118, 5 grams . . . Price: $.95 / The EC-1118 strain is recommended for all types of wines, including sparkling, and late harvest wines and cider. It may also be used to restart stuck fermentations. An excellent choice for champagnes and late harvest wines. Also a very good choice for dry whites.

Yeast K1-V1116, 5 grams . . . Price: $.95 / The K1V-1116 strain tends to express the freshness of white grape varieties such as Sauvignon Blanc, Chenin Blanc and Seyval. The natural fresh fruit aromas are retained longer than with other standard yeast strains. Fruit wines and wines made from concentrates poor in nutrient balance benefit from the capacity of K1V-1116 to adapt to difficult fermentation conditions. Restarts stuck fermentations. Highly recommended for dry whites, aged reds, and late harvest wines.

Yeast RC-212, 5 grams . . . Price: $.95 / RC 212 is recommended for red varieties where full extraction is desired. Lighter red varieties also benefit from the improved extraction while color stability is maintained throughout fermentation and aging. Aromas of ripe berry and fruit are emphasized while respecting pepper and spicy notes. An excellent choice for both young & aged red wines.

Yeast 71B-1122, 5 grams . . . Price: $.95 / The 71B is used primarily for young wines such as *vin nouveau* and has been found to be very suitable for ice wine, blush and residual sugar whites.

Cappers

Crown Cappers (Manual)

Grifo Manual Crown Capper, Model TCSG
- Comes standard with bells for Ø 26 and Ø 29 caps
- Heavy duty capping machine with die-cast aluminum body
- Very durable
- For professional use
- Adjustable height

Cat. No.: TCSG / Price: $190.00

Corkers

Grifo - Italian Floor Corker
Cat. No.: TG / Price: $115.00

The structure is a tripod made of enameled steel, making the product very sturdy. Thanks to the spring plate, which automatically adapts the corker to the bottle, it is suitable for corking a wide variety of bottles. The sturdy jaws are made from brass. The high-quality materials used for the components ensure reliability and durability.

Corks

Note on cork sizes.
#8 and #9 corks refer to the diameter of the cork.
#9 corks have a diameter between 23.5 mm and 24 mm.
#8 corks have a diameter between 22 mm and 23 mm.

Natural Corks- are made from a solid piece of cork.

Amorim Acquamark Natural Cork (Colmated)
Cat. No. ARCO0903106
Body Dimensions: (Ø x H): 24 mm x 45 mm
#9 Cork Size

Price: Quantity 50 -$10.75

Price: Quantity 1000 -$210.00

Agglomerated Corks- Agglomerated corks are made from cork granules that are held together by a special cork epoxy.
1+1 Agglomerated consists of the body being made from cork granules and both discs or ends being made of all natural cork.

Amorim Twin Top B BWC Stopper (1+1 Agglomerated)
Cat. No. ARCO0903108
Body Dimensions: (Ø x H): 23.5 mm x 44 mm
#9 Cork Size

Price: Quantity 50 -$9.00

Price: Quantity 1000 -$175.00

All Agglomerated With Grape Logo
Cat. No. TSU00361P
Body Dimensions: (Ø x H): 23 mm x 42 mm
#8 Cork Size

Price: Quantity 50 -$8.75

Price: Quantity 1000 -$165.00

Corks

Synthetic Corks- are made from polymer resins.
G3 Synthetic Cork
Sold in Bags Of 1,000 Corks.
Size (22.5 mm x 44 mm), Woodgrain With Grape Logo
#8 Cork Size

Price: Quantity 50 -$9.50

Price: Quantity 1000 -$185.00

Black Plastic T-Top Cork With Synthetic Body
Cat. No. TSP000250
Head Dimensions:
(Ø x H): 29 x 9 mm
Body Dimensions:
(Ø x H): 19.5 x 20 mm

Price: Quantity 50 -$13.75

Corks

#9 TAPERED CORK. Fits a 750ml wine bottle.

Price: Each -$0.25

#14 TAPERED CORK. Fits a 5 liter Magnum bottle.

Price: Each -$0.75

#16 TAPERED CORK. Fits 3, 6, and 6 gallon carboys.

Price: Each -$0.75

#18 TAPERED CORK. Fits a 25 gallon barrel.

Price: Each -$0.75

#28 TAPERED CORK. Fits a 53 and 59 gallon barrel.

Price: Each -$2.50

Grifo Fruit Crushers (Stand Type)

Grifo Hand Powered Fruit Crusher With Stainless Steel Hopper- Model PIG
- Hopper size: 950x600 mm
- Nylon rollers
- Stainless Steel Knives
- Stainless Steel Hopper
- Hourly production: 300 to 500 kg
- Weight: 26kg

Cat.# PIG / Price: $475.00
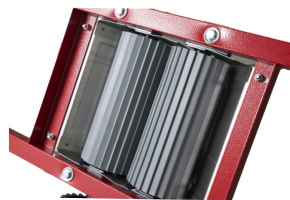

Grifo Motorized Fruit Crusher With Stainless Steel Hopper- Model PIGMO
- Hopper size: 950x600 mm
- Stainless Steel Knives
- Nylon rollers
- Stainless Steel Hopper
- Electric Motor, 110 volt, 1 hp
- Hourly production: 1500 kg
- Weight: 35 kg

Cat. No. PIGMO / Price: $715.00

Grifo Grape Crushers (Stand Type)

Grifo Large Hand Powered Grape Crusher With Painted Steel Hopper-Model PG
- Hopper size: 950x600 mm
- Nylon rollers 280 mm
- Painted Steel Hopper
- Hourly production: 500/800 kg
- Weight: 26 kg

Cat. No. PG / Price: $260.00
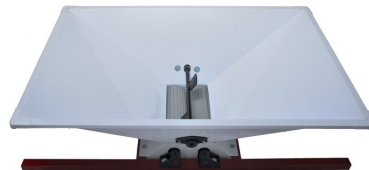

Grifo Large Hand Powered Grape Crusher With Stainless Steel Hopper-Model PGI
- Hopper size: 950x600 mm
- Nylon rollers 280 mm
- Stainless Steel Hopper
- Hourly production: 500/800 kg
- Weight: 26 kg

Cat. No. PGI / Price: $430.00
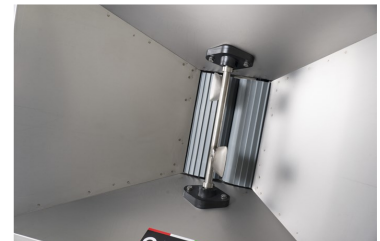

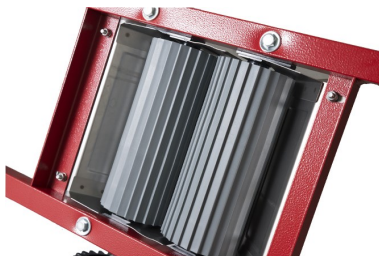

Grape Crusher (Stand Type) - GRIFO

Grifo Motorized Grape Crusher With Painted Steel Hopper- Model PM
- Hopper size: 950x600 mm
- Nylon rollers 280 mm
- Electric Motor, 110 volt, 1 hp
- Hourly production: 1500 kg
- Weight: 35 kg

Cat. No. PM / Price: $595.00

Grifo Motorized Grape Crusher With Stainless Steel Hopper- Model PMI
- Hopper size: 950x600 mm
- Nylon rollers 280 mm
- Stainless Steel Hopper
- Electric Motor, 110 volt, 1 hp
- Hourly production: 1500 kg
- Weight: 35 kg

Cat. No. PMI / Price: $695.00

Grifo Grape Crushers / Grape Destemmer (Stand Type)

Grifo Hand Powered Grape Crusher/Grape Destemmer With Painted Steel Hopper And Painted Steel Body- Model DMA
- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- Painted Steel Hopper
- Hourly production: 700/800 kg
- Weight: 39 kg

Cat. No. DMA / Price: $495.00
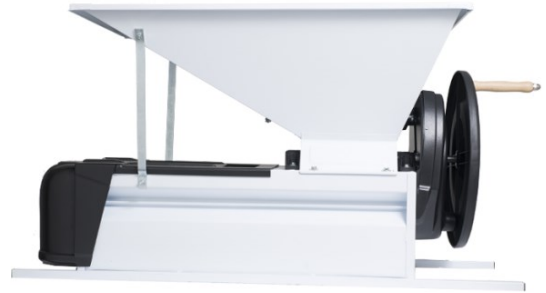

Grifo Hand Powered Grape Crusher/Grape Destemmer With Stainless Steel Hopper And Painted Steel Body- Model DMASI
- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- Painted Steel Hopper
- Hourly production: 700/800 kg
- Weight: 39 kg

Cat. No. DMASI / Price: $640.00

Same style as the DMA pictured above only with a stainless steel hopper and painted steel body.

Grifo Grape Crushers / Grape Destemmer (Stand Type)

Grifo Hand Powered Grape Crusher/Grape Destemmer With Stainless Steel Hopper & Stainless Steel Body- Model DMAI

- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- Stainless Steel Hopper
- Hourly production: 700/800 kg
- Weight: 39 kg

Cat. No. DMAI / Price: $825.00

Grifo Motorized Grape Crusher / Grape Destemmer With Painted Steel Hopper And Painted Steel Body- Model DMC

- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- Painted Steel Hopper & Body
- Electric Motor, 110 volt, 1 hp
- Hourly production: 1500 kg
- Weight: 54 kg

Cat. No. DMC / Price: $795.00
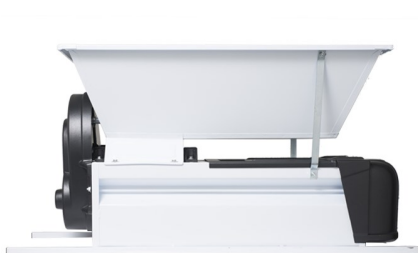

Grifo Grape Crushers / Grape Destemmer (Stand Type)

Grifo Semi Stainless Steel Metal Motorized Grape Crusher/De-Stemmer With Stainless Steel Hopper And Painted Steel Body- Model DMCSI
- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- 110 Volt, 1 hp motor
- Hourly production 1500 kg
- Weight: 54 kg

Cat. No. DMCSI / Price: $1,095.00

Grifo ALL Stainless Steel Metal Motor Powered Grape Crusher/De-Stemmer With Stainless Steel Hopper And Stainless Steel Body- Model DMCI
- Hopper size: 900x500 mm
- Nylon Rollers 220 mm
- 110 Volt, 1 hp motor
- Hourly production 1500 kg
- Weight: 54 kg

Cat. No.: DMCI / Price: $1,395.00

Grifo Grape Crusher / Grape Destemmer- Accessories

Painted Metal Stand For Grape Crusher / Grape Destemmer
Cat. No.: CAV / $200.00

Stainless Steel Metal Stand For Grape Crusher / Grape Destemmer
Cat. No.: CAVI / $270.00

Presses

Marchisio Manual Wooden Ratchet Press With Painted Metal Basin
- Painted Steel Basin
- With Two Wooden Half Moons And 6 Wooden Heels
- Wooden Cage
- Welded Steel Blade Connects Cage Rings To Prevent Cage Deformation

Marchisio Stainless Steel Tanks-Replacement Parts

Marchisio Stainless Steel Hand Pump With Gauge & Hook / Cat. No.: PM00010/ Price: $48.00
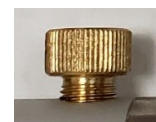

Note: The hand pump is interchangeable with Sansone, TM Inox,
and Algor tanks with a hook.

Pressure Gauge For Marchisio Hand Pump / Cat. No.: PGHP/ Price: $19.00

Brass Knob For Marchisio Hand Pump / Cat. No.: BKN/ Price: $7.25

Item	Cat. No.	Price	DN	KG
Chrome Plated Spigot 3/8" G (BSPP)	SSS3/8	$14.00	3/8"	0.15
Chrome Plated Spigot 1/2" G (BSPP)	SSS1/2	$17.50	1/2"	0.16
Chrome Plated Spigot 3/4" G (BSPP)	SSS3/4	$20.50	3/4"	0.24

RIV 6400
Bent ball cock
with bottlefiller spout
aluminium lever handle

Note: The thread that screws into the tank is GAS (BSPP).
The outer diameter of the threaded male end is 16.62 mm (0.65") for the 3/8" spigot.
The outer diameter of the threaded male end 20.95 mm (0.82") for the 1/2" spigot.
The outer diameter of the threaded male end is 26.44 mm (1.04") for the 3/4" spigot.
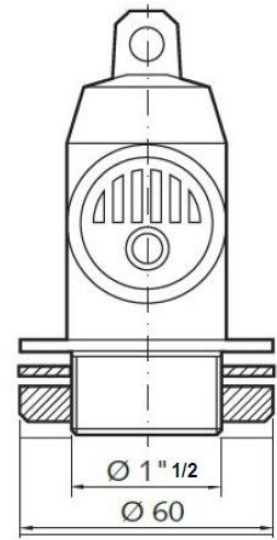

Stainless Steel Tank Parts

Plastic Air Vent LARGE- (G 1"-½)
- 1.8" Outer Thread Diameter
- For Openings 1.8 to 2.25"
- Marble In Airlock

Cat. No.: 20130 / Price: $16.00

Note: The large airlock fits:
- All Marchisio tank lids.
- TM Inox tank lids.
- Algor tank lids on tank sizes 2,000 liter and greater. Does not fit smaller size Algor tanks.
- Does not fit Sansone tank lids.

Plastic Air Vent SMALL- (G 1"-¼)
- 1.6" Outer Thread Diameter
- For Openings 1.6 to 2.1"
- Marble In Airlock

Cat. No.: 20135 / Price: $16.00

Note: The small airlock fits:
- All Sansone tank lids.
- Algor tank lids on tank sizes 100, 230, 330, 420, 530, 640, and 1,000 liter.
- This airlock will also fit Marchisio tanks but it needs to be centered in the lid hole.
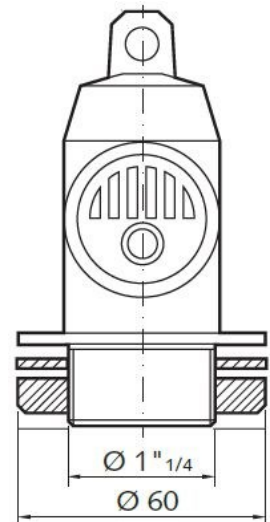

Clear Flexible Tubing 5/16" Inside Diameter
Cat. No.: BSG5602 / Price Per Foot: $1.50

Note: This tubing is used to connect the stainless steel hand pump to the gasket for all variable capacity tanks.

1000	B01000SAL-F	930	SAN-CA930	$36.25

* Note: a 550 mm gasket will fit the Sansone 200 Liter tank and can be substituted for a 570 mm gasket.

*NOTE: In April of 2018 Sansone changed the diameter of the lid for the 100 and 200 liter tanks. The new lids are smaller in width than the older lids.

Diameter of 100 liter new lid: 17-3/8"- recommended gasket is the Sansone 455 mm gasket.
Diameter of 100 liter old lid: 17-15/16"- recommended gasket is the MARCHISIO 500 mm gasket.

Diameter of 200 liter new lid: 21-3/4"- recommended gasket is the Sansone 570 mm gasket.
Diameter of 200 liter old lid: 22-3/16"- recommended gasket is the MARCHISIO 600 mm gasket.

In order to receive the right gasket for your particular lid please measure the diameter of the lid.

Position 1-Air Relief Valve, 1/4" GAS. Zambelli hydro presses sizes 20 through 80 all take a 1/4" GAS air relief valve.
A 1/4" GAS measures 13.15 mm (.51") diameter for the male threaded part of the valve.

Hydro 20 /40 Locking Crank (Position #2) / Cat. No.: ZHLC20-40 / Price: $40.50
Hydro 80 /160 Locking Crank (Position #2), (Zambelli Code 1188R00165)/ Cat. No.: ZHLC80-160 / Price: $44.00

*Note:
- The locking crank for the Hydro 20 and Hydro 40 are the same. The hole on the top cover that the central shaft goes through measures 20 cm for both a Hydro 20 and 40. The threaded central shaft for the Hydro 20/40 is size M20 which is a metric measurement.
- The locking crank for the Hydro 80 is larger. The Hydro 80 and Hydro 160 use the same locking crank. The threaded central shaft for the Hydro 80/160 is size M24.

Zambelli Hydro 20 to 80 (Water) Press Parts (specify model when ordering).

Premium Wine Grapes & Juice For Home Winemakers

California Wine Grapes & Juice (Available Each Fall)

Gino Pinto Inc. distributes a wide variety of grapes through our growers in California. California grapes are world-renowned. Varieties of white grape that are available include: Albarino, Chardonnay, French Colombard, Gewurztraminer, Malvasia Bianca, Muscat Alexandria, Muscat Canelli, Sauvignon Blanc, Pinot Grigio, Riesling, Thompson Seedless, and Viognier.

Reds include: Barbera, Black Malvasia, Cabernet Franc, Cabernet Sauvignon, Carignane, Grenache, Malbec, Merlot, Mourvedre, Nebbiolo, Petite Syrah, Petite Verdot, Pinot Noir, Pinotage, Ruby Cabernet, Sangiovese, Syrah, Tempranillo, and Zinfandel.

Also offered in the Fall are California and Italian varietal grape juice packed in 6 gallon buckets for winemakers who want to avoid grape crushing and pressing.

Chilean Wine Grapes & Juice (Available Each Spring)

Gino Pinto Inc. also sources grapes from the Curico Valley in Chile. Available Chilean fresh red grape varieties include: Cabernet Franc, Cabernet Sauvignon, Merlot, Syrah, Malbec, Pinot Noir, Petite Verdot, and Carmenere. Available Chilean fresh white grape varieties include: Chardonnay, Sauvignon Blanc, and Viognier.

Chilean juices packed in 6 gallon buckets available in red are: Cabernet Franc, Cabernet Sauvignon, Cab./Merlot Blend, Merlot, Syrah, Malbec, Pinot Noir, Petite Verdot, and Carmenere. Whites offered are Chardonnay, Muscat, Pinot Grigio, Sauvignon Blanc, Riesling, and Viognier.

South African Wine Grapes & Juice (Available Each Spring)

Gino Pinto Inc. imports grapes from the Breede River Valley, Stellenbosch, and other areas of South Africa. These areas are in the Western Cape Region and are known for world class wine. Red grape varieties include: Cabernet Franc, Cabernet Sauvignon, Merlot, Pinotage, and Barbera.

South African juice packed in 6 gallon buckets in red include: Barbera, Cabernet Sauvignon, Merlot, Pinotage, and Shiraz. Whites include: Chardonnay, Chenin Blanc, Pinto Grigio, Sauvignon Blanc, and Semillon.

Fruit Juice For Home Winemakers

Each Spring and Fall we offer "Natural Select" Fruit Juice for home winemaking in 6 gallon buckets.

Experiment with new flavors and unique blends. An ideal solution for winemakers looking to make fruit wines.

Perfect as a varietal or blending partner.

- 100% Natural Juice. 100% Natural Flavor
- 22° Brix base with acidity between .80% to 1.00%
- Complete and immediately ready to begin the fermentation process
- Prefiltered for predictable yield

Juices include: Apple, Blackberry, Blackcurrant, Blueberry, Cherry (Tart), Concord, Cranberry, Elderberry, Mango, Dragon Fruit, Peach, Pear, Pineapple, Plum, Raspberry, and Strawberry.
